To: PZ Clerk <pzclerk@townofnewlebanon.com>

To The New Lebanon Planning Board:

We want to clarify and update information we made in our July 31 letter regarding Tilden Commons.

According to the NY State Educational Development website, they show that approximately 456 Students graduated in 2024 from eight County public high schools. This includes ALL students, home schooled and in school.

We incorrectly wrote: "Columbia County had a mere 200 graduating high school seniors from eight County public high schools this year...."

In fact, it is very challenging for the public to obtain graduation numbers for across the county.

We could not locate information on subsequent years to verify if those numbers have changed or remained the same.

We hope you can post this correction with our original letter, if possible.

THANK you,

Peg Munves and Moy Wong
